Primary PE & Sport Premium- Case Study of Effective Practice

Ashby Hill Top Primary School

All pupils are able to participate in every PE lesson

Name: Diane Mullan
Role within School: Head Teacher

Context
- The school received £9,200.
- There are currently 288 pupils on roll.

Actions
- Data collection helped to identify priority areas within our PE & School Sports provision. These included; increasing provision for KS1 pupils, increasing provision for girls and other less active groups in extra-curricular activities and to provide opportunities for a wider range of pupils to participate in intra and inter school competitions.
- There was also consultation with the school council to ensure input from pupils was used to identify appropriate activities.
- We have addressed specific barriers such as capacity of extra-curricular clubs, variety of clubs, availability of specialist equipment, staff knowledge and transportation costs to inter school competitions and festivals.
- The SSP package includes a multi-sports coach to support staff, provide specialist advice, resources and CPD.
- Extra-curricular provision now includes less ‘mainstream’ activities such as dodgeball, zumba and multi-sports clubs. We targeted groups to ensure that all pupils have the opportunity to participate.
- Developed the intra-school (level 1) competitive sports offer, with young ambassadors and staff arranging school games days.
- Purchased new kit for students and staff. The kit was to ensure all pupils are able to participate in every PE lesson.
- Our health programme includes professional delivery of “health roadshows” for all year 2 and year 4 pupils annually, with children supported in completing activity diaries. Targeted students could access a Change 4 Life club (Smart Movers) supported by Leicestershire Dietetic Service.

Impact
- Participation has increased as we have entered a significant number of inter-school competitions.
- There is an increase in extra-curricular club participation figures with over 50 boys and girls at a weekly football club and 2/3 of KS2 pupils participating in an after school club during 2013/14.
- New opportunities to participate in new sports and activities such as dodgeball and orienteering.
- Staff have broadened their knowledge by shadowing partnership coaches in a variety of sports.
- A growing confidence in the teaching staff to deliver high quality PE to all ages in our school.
- Quality of delivery has been improved by sourcing larger pieces of specialist equipment such as agility tables and lightweight mats, as well as updating old equipment and ensuring high quality basic supplies.
- Achieved Bronze School Games Mark.
